## PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience in React.js, JavaScript (ES6+), Redux, and modern UI frameworks. Skilled in building responsive, scalable, and maintainable user interfaces with a strong focus on component architecture, API integration, and performance optimization. Committed to delivering clean, accessible, and mobile-first user experiences.

## TECHNICAL SKILLS

**Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Redux, Bootstrap, Tailwind CSS

**Tools:** Git, GitHub, VS Code, Postman

**Others:** Axios, Debugging, Responsive Design, Performance Optimization, Version Control

## PROFESSIONAL EXPERIENCE

**React.js Developer | Vected Technologies Pvt. Ltd.**

**July 2025 – Present | Indore, India**

- Built modular, reusable UI components and improved performance through optimized rendering, lazy loading, and code splitting.
- Integrated REST APIs using Axios and maintained predictable state management with Redux and React Hooks.
- Converted Figma designs into responsive and pixel-perfect interfaces across multiple devices.
- Ensured UI consistency and faster development using Tailwind CSS and Bootstrap.
- Collaborated with backend teams for API integration and managed code using Git/GitHub within Agile workflows.

**Associate Software Engineer | Teleperformance Pvt. Ltd.**

**April 2024 – June 2025 | Indore, India**

- Tested React-based interfaces, identifying layout, performance, and cross-browser issues.
- Verified builds, supported deployments, and documented UI defects for timely resolutions.
- Assisted QA teams in manual testing and validating UI behavior across Chrome, Firefox, and Edge.

**Trainee Software Engineer | Taskcraft Technologies Pvt. Ltd.**

**Internship — July 2023 – December 2023 | Indore, India**

- Developed responsive UI components using HTML, CSS, JavaScript, and React.js.
- Assisted in API integration, debugging, and optimizing application performance.
- Worked with Git/GitHub and followed Agile methodologies in daily development tasks.
- Supported testing, troubleshooting, and writing clean, maintainable code.

## PROJECTS

**Role-Based Admin Dashboard**

- Developed an admin dashboard with secure role-based authentication and controlled access.
- Implemented CRUD operations using Redux Toolkit and RTK Query.
- Ensured fully responsive UI and consistent styling with Tailwind CSS.
- Improved performance with caching and optimistic updates.

**Tech Stack:** React.js, Redux Toolkit, RTK Query, Tailwind CSS, React Router

### **Brains-Kart | E-Commerce Frontend**

- Built a complete e-commerce interface with product listing, filtering, and cart features.
- Enhanced UI performance through optimized rendering and efficient state updates.
- Ensured responsive, user-friendly design using Tailwind CSS and Bootstrap.

**Tech Stack:** React.js, Redux, Tailwind CSS, Bootstrap, Axios

### **Big Basket UI Clone**

- Developed a grocery shopping interface featuring product listing, filtering, and cart modules.
- Built reusable components and fully responsive layouts.
- Integrated mock API data using Axios for dynamic functionality.

**Tech Stack:** React.js, Redux, Tailwind CSS, Bootstrap, Axios
